### Two plan options:

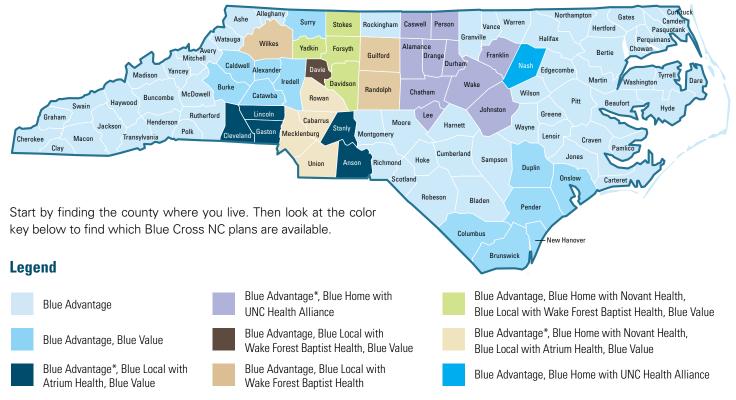

4

**Copayment plans** offer a fixed copayment (or copay) for things like office visits and prescriptions. While you'll know what you're going to pay for these services with copay plans, they come at a higher monthly premium cost. These plans are ideal for someone who wants predictable costs and doesn't mind paying more in premiums.

Deductible and coinsurance plans have lower premiums than copayment plans. If you don't expect a lot of medical expenses, this may be a good choice for you. With these plans, you pay the full cost of your medical expenses until you meet your deductible. After meeting your deductible, you will pay a coinsurance percentage for health care. This means you will share your health care costs with Blue Cross NC until you reach your out-of-pocket limit. Once you reach your out-of-pocket limit, Blue Cross NC pays all covered costs.
